NEW EARNINGS LIMITS FOR SOCIAL SECURITY RECIPIENTS EFFECTIVE IN 1973

—No Earning Limit for those 72 Years of Age or Older

Starting in 1973, people who are working while getting social security benefits can earn more without losing any of the benefits, and if they earn over that amount will never lose more than \$1 in benefits for each \$2 earned, according to John M. Beal, Social Security District Manager in Lewiston.

"The more you earn, the higher your total income will be," Beal said. "Under the new social security law, social security payments will be reduced by \$1 for every \$2 earned over \$2,100 in a year." Previously, monthly payments were reduced by \$1 in benefits for every \$2 earned between \$1,680 and \$2,880 in a year—and by \$1 for every \$1 earned over \$2,880.

People 72 and over will continue to get their full social security benefits regardless of earnings. Under the new law, people under 72 can earn as much as \$2,100 in a year and get their full social security benefits. Different rules apply to people getting social security disability benefits if they work.

In addition, starting in 1973, full benefits can be paid for any month in which an employee's wages are not more than \$175—or he didn't perform substantial services in self-employment. Previously, the monthly limit was \$140.

"Also, starting in 1973, only your earnings in the months before you reach 72 will be used to figure what benefits are due you for those months," Beal said. "Before, earnings in the entire year you reached 72 were counted in figuring benefits due you for months before you were 72. So you can earn as much as \$2,100 next year during the months before you're 72 and still get your full social security payments for those months as well as the rest of the year."

Another feature of the new law assures that the earnings exemption for people getting social security payments will go up automatically in future years as earnings levels increase. The first year there can be an automatic increase is 1975.

Social Security pays monthly benefits to eligible retired and disabled workers and their families and to families of deceased workers who were insured under social security. In Oxford County, this change applies to about 7,000 people drawing retirement or family benefits.

Richard Kemner, a student at Bangor Seminary will preach at the Locke Mills and West Bethel churches on Sunday.

POLIO STILL WITH US, SAYS STATE HEALTH OFFICIAL

"The danger of polio is still with us," says David Enorowski, Director of the Immunization Program for the Maine Bureau of Health. "State wide surveys show that polio immunization levels in Maine vary from approximately 60% to 80% depending upon the area. This indicates that not all of today's parents are having their children immunized."

"Physicians are bothered by the fact that in the important one-to-four-year-old age group, one of every three children has not gotten polio vaccine," stated Dr. John J. Witte, Chief of the Immunization Branch of HESW's Center for Disease Control in Atlanta, Georgia.

Ironically, the polio vaccine's effectiveness is the major reason why people tend to overlook polio immunization, observes Dr. Witte. Widespread use of the vaccine has produced one of the greatest success stories in medical history. Before polio vaccine, nearly 40,000 Americans a year suffered the effects of polio. Today, only a handful of cases are reported in the U. S.

When polio vaccine was first introduced, parents rushed to protect their children, with the memory of polio epidemics still vivid in their minds. It has been years since the last major outbreak of polio in the United States; so some parents mistakenly tend to think there is no reason for giving polio vaccine to their children. Dr. Witte says "We don't want to see the bad old days come back."

Protecting a child is easy, Dr. Witte stresses. To be immunized, a child simply swallows a few drops of tasteless liquid containing the vaccine.

For newborn children, the American Academy of Pediatrics recommends a dose of vaccine at two months, another at four months, one at six months, and another when the child is one and a half years old. Another dose is recommended when the child first enters school. However, children's medical needs may vary, so all parents are urged to follow the advice of their physician.

RECORD CROWDS VIEW NINTH "LIVING NATIVITY" LAST SUNDAY AFTERNOON

Once again, the Bethel community shared their Living Nativity Scene on the outdoor Common on the Sunday before Christmas — Christmas Eve this year—for the enrichment of townspeople and visitors alike. Crowds gathered in record numbers to see the story of the First Christmas again enacted in pantomime by costumed participants under the glow of lights.

A raised manger allowed more people to view the Scene; and the addition of more animals, shepherd families, and other customs of that period added further interest.

As always—but even more so this year—as the excitement of the Yule season turned everyone's thoughts to the pageant, the townspeople were more than willing to help.

This ninth year again showed that the true Christmas spirit is felt and lived when people think about its meaning and share it with others.

27 FIFTH GRADERS VISIT DISTRICT COURT

Twenty-nine fifth grade pupils from Crescent Park School along with their teacher, David Worcester, and six parents enjoyed a visit to Oxford County District Court on Tuesday, Dec. 19. County Attorney Michael O'Donnell, who had visited the class the previous day to prepare the students for their court appearance, greeted them at the Court House and explained the nature of the proceedings which they were to see. After a variety of issues were settled in the District Court, Judge John Batherson answered a great many questions presented by the fifth graders.

Mr. O'Donnell then escorted the group through the other county facilities including the County Commissioners' Office, Civil Defense Headquarters, Registry of Deeds, Registry of Probate, Superior Courtroom, Sheriff's Office, and the County Jail.

Each pupil was given a booklet containing a wealth of information about Oxford County and each undoubtedly will long remember the many things seen during this interesting field trip.

TO HOLD JANUARY MEETING OF BETHEL HISTORICAL SOCIETY NEXT THURSDAY EVENING

The monthly meeting of the Bethel Historical Society will be held at the Casco Bank Community Room at 7:30 on Thursday evening, Jan. 4. Marius Peladeau, new Community Historical Consultant for the Maine League of Historical Societies, will be the speaker, and there will also be a question and answer period.

Mr. Peladeau, as Project Coordinator for the League, will endeavor to help societies in carrying out their programs and in the case of Bethel, it is expected that his counsel will be invaluable in preparing for the opening and operation of the Dr. Moses Mason House Museum, now undergoing restoration. He is a Lewiston native, who has been working in the historical preservation field in Washington, D. C. He has just moved his family to Monmouth, Maine.

It is hoped that members of the society will make an effort to be present at this meeting, and anyone interested in the museum plans is most welcome to attend.

There was an excellent attendance at the December meeting, and everyone enjoyed the "Show and Tell" program, and delicious refreshments.

The museum furnishings committee to date has not received any definite offers of furniture, glass, china, pictures, mirrors, etc., for consideration as gifts to furnish the museum. The house must be furnished in things typical of those used in Bethel in the 1850's. This was not a luxurious home, but that of a financially successful business man of modest tastes. There were no children in the family, and early furnishings lasted, but regrettably were sold over the years, by those who inherited the house and contents.

A parlor, a kitchen and two bedrooms must be furnished. Chairs, chests, tables, beds, candlestands, bedsteads, lamps, rugs, bedding, china, glass, tinware, cooking utensils, etc., will be among the things needed. The committee reserves the right to consider the suitability of gifts for this use.

If anyone has anything made by a first cabinet maker, Marshall Bonney, which would fit into the house, it would have especial interest. It is known that Dr. Mason had the first sofa made by Mr. Bonney, but also that the sofa was not thought of as a gift by a guest.

Books or pictures commonly used during these early years will also receive consideration. Do not hesitate to talk with any member of the furnishings committee, or officer of the society if you think you have something to contribute. If suitable, Elizabeth Mason Carter, chairman of the trustees, is joined by the furnishings committee by Mrs. Gladys Sawyer, Mrs. Beatrice

GLORY ON THE COMMON

Each year we watch the enactment of the beautiful Nativity Scene in our village.

Time for weeks of preparation in this busy season have been willingly given by local people. The presence of children taking part is a happy omen for the future of the spectacle.

The attendance of hundreds many from adjoining towns and cities is rewarding. The privilege of participating in this inspiring drama is a reward.

The gratitude of the town people to the originator of this unique production is more in evidence each year.

Again we remember that God is in His heaven and all in sight and some parts of this dear old world.

TURNER PLANE CRASH TAKES TWO LIVES WEDNESDAY

A National Transportation and Safety Board investigator is due to join the probe of a plane crash in Turner which claimed the lives late Wednesday morning of two persons and critically injured a third.

Dead in the accident at Twitchell's Airport were the airfield operator, Ronald Beedy Twitchell, 60, and Mrs. Lillian H. Meisner, 51, of Skilling's Corner, Turner.

A medical examiner stated last night that death was caused by multiple injuries suffered in the crash.

Mr. Twitchell was widely known in this area of New England as an aviator and flight instructor.

In critical condition in the Central Maine General Hospital's intensive care unit was the lone survivor, Clyde (Bob) Meisner, 49, a Twitchell student and husband of the woman who died in the crash. A hospital spokesman said Meisner suffered fractures of the ribs, left knee and right leg, and a laceration of the right cheek.

Rescuers labored for more than a half hour to extricate Meisner from the wreckage of the plane which he reportedly purchased only about two months ago.

It was stated the craft crashed shortly after take-off from the airport, some 200 feet from the end of the runway.

TUESDAY, FEB. 20 IS DATE FOR S.A.D. 44 BUDGET MEETING

"Happy New Year" and may 1973 bring us better weather than 1972. This week has been a "bummer." It's hard on the last minute shoppers for Christmas.

The snow and ice is building up on roof tops. If anyone has a flat roof they had better take a look because if we get much rain it will be heavy. We had two roofs channeled off today and found a lot of ice under it.

Mr. and Mrs. Lealie Bryant called on Mr. and Mrs. Ellis Davis Wednesday. They hadn't been down for a week and a half because of the inclement weather.

Mr. and Mrs. Ellis Davis made the rounds on Santa Claus' mission for the Grange's "shut-in" members Monday.

SUNDAY'S SERMON

The New Year
Now that you've finished making a list and checking it twice for Santa, how about sitting down and thinking about seriously making a list of New Year resolutions? Only this year try sticking to them.

If you are like most of us, every year you go through the ritual of thinking about resolutions - things you should be doing or changing during the new year - and then you forget them about a day or two after New Year's Eve. You forget them until next New Year's Eve when you'll go through the same ritual.

You can end this silly cycle of non-doing by really sticking with those resolutions through the whole year and through the rest of your days. Get on side with God and stay there. Help others to realize that God is good and God is love. Ask for His help in deciding what your resolutions should be and in helping you to live up to them. You'll find that it works!

THE TRUTH THAT HEALS
A Christian Science radio series

The New Year
by Horatio Nelson Powers
(1826-1890)

A flower unblown; a book unread;
A tree with fruit unharvested;
A path untrod; a house whose rooms
Lack yet the heart's divine perfumes;
A landscape whose wide border lies
In silent shade 'neath silent skies;
A wonderful fountain yet unsealed;
A casket filled with gifts concealed -
This is the year that for you waits
Beyond to-morrow's mystic gates.

Mr. and Mrs. Gardner Smith join Howard and daughter, Albany; Mr. and Mrs. Phillip Lovejoy and three children, Fryburg; Mr. and Mrs. Trimbach, North Waterford. Others Richard Trimbach, Mr. and Mrs. Bud Springer and son, Mr. and Mrs. Henry Heath and Junior, Mr. and Mrs. Fred Millett, Mr. and Mrs. Chester Mrs. Russell Allen, Lovell; Peter Millett, all of North Waterford.

your week ahead

BY DR. A.W. DAMIS

Forecast Period: December 31, 1972 to January 7, 1973

ARIES
Mar. 21 - Apr. 19
Already, the feeling of a new venture should be upon you. For most members of your sign, there will be a change in tasks, jobs or projects.

TAURUS
Apr. 20 - May 20
You must avoid a deadly lack of confidence, this week. It's "Damn the torpedos, full speed ahead," in all departments of life, including affairs of the heart.

GEMINI
May 21 - June 20
Watch it, Gemini! It's highly probable that a serious decision, concerning the opposite sex, will be a factor this week. Don't commit yourself.

MOONCHILD
June 21 - July 22
A chronic ailment that usually flares up when you are under pressure, might threaten this week. So? Avoid conflicts; get rest; watch your diet.

LEO
July 23 - Aug. 22
Deception seems to be in the general scheme of things. Beware of a "get rich" scheme and a fast talker who promises you the world.

VIRGO
Aug. 23 - Sept. 22
For those under your sign, so inclined, the beginning of a clandestine relationship with a member of the opposite sex... is possible. Need more be said?

LIBRA
Sept. 23 - Oct. 22
Don't be tricked by the urge to go over a superior's head. In other words, go through the regular chain of command, while performing job, task or project.

SCORPIO
Oct. 23 - Nov. 21
According to your chart, outside pressure might force you into making a bad decision. Actually, you are inclined to make a decision, based on your moods, this week.

SAGITTARIUS
Nov. 22 - Dec. 21
Apparently, a member of the opposite sex is studying your behavior pattern. It's probable that a subtle overture will come your way, this week.

CAPRICORN
Dec. 22 - Jan. 19
Little white lies, in one form or another, will have a tremendous impact on your job, task or mission. The point? Check for accuracy, when communicating with co-workers or associates.

AQUARIUS
Jan. 20 - Feb. 18
Persuasiveness is at a peak, for most members of your sign. As a matter of fact, many "blue sky" schemes will be sold by Aquarians.

PISCES
Feb. 19 - Mar. 20
During this particular cosmic cycle, you could easily step out of character by antagonizing a superior. A lack of discretion shows in your chart.

GREENWOOD CITY

Mrs. Colista Morgan, Corres.

All morning the sun had shone but I picked up my snowshoes to go to the door it vanished.

My cuckoo clock, given to me by my pupils 11 years ago this Christmas, opened its door and called "CUCKOO!" All this because I was going out to the swamp!

After crossing the road to the pond the nasal note of the nut hatch came from the maple. I suppose he, too, was wondering. But my happy little chickadees had no complaints. They just cheered me on.

I had looked at this world outside my window for some time and had waited for this time when the sun was safe on the pond.

The sun again appeared and the whole world was pure white. The trees stood bare and the bluster of the angry winds pushed down the snow.

Upon the mountains the snow lay deep in the distance.

I took my way across the pond to where a channel led into the swamp. There is no better way to know a swamp in winter than to go across. Pick a day like this one when the sun drops over Maine in a golden career. Go, stand, look, listen, notice the wonderful variety and amazing life adaptations of this small world.

To my left was a beautiful arch way under which I entered my woodshed. Bright crystal pendants edged a stream where feathered things of small foot prints had wandered. The tiny music didn't go far: just to the place where tiny rills once crept under the tree roots to creep in and amid the leaves and grasses and pebbles on the pond.

All around the snow's white blanket revealed the rabbits' tracks and the straight line trails of the deer. They may have been a meeting place of animals for in the background lay a dead tree, hollow, with one prong reaching as if to keep close the snow. Tall weeds escaped above it and a birch rooted and old at the right lay perpendicular to it. I could picture the rabbits as they cowered here, the shivering mouse, the shy fox, the doe, and high above all some where an owl watching, waiting, against the stars. The soft white drifts and glittering flakes nestled around them while hawks, overhanging, swayed in the swirl of wind for last night the mighty currents came rushing down from the north. Even as I pictured this of last evening the wind in the tops of the trees now, sounded like cut on the shore.

Behind a boulder deep in the woods I tucked my way through the snow high drifts and waited for I had heard first high notes then low tones was talking its way to the shore and the brook breath play and fairly warm.

Way across often crossed my face I pecked on.

A squirrel scurried by and then an old dead tree stump came to bury its cry. They darted away and left the snow to me.

There's magic all around you At any time of year.

Was only need patience To see, and feel, and hear.

Veronica

Turning back toward the pond I saw a bird's nest just above my head and it was staring a white bird to match mine.

Up up rose a steady gray line to the north with a constant line of light from the horizon, while the sun and stars and clouds moved about in space of time like clouds of sea.

My eyes and heart gave way to the sun then the pond at the edge of which a family of deer appeared standing in a large pasture, quite close to the edge of the swamp. They were looking at the sun and the stars and clouds moved about in space of time like clouds of sea.

Add tomato sauce, rice, tomatoes, salt, pepper and thyme. Pour into greased 1 1/2-quart casserole. CONSUMERS' CORNER

Know your fake furs, too!
Some fake furs need to be pampered almost as much as the real thing. So as you shop, study the label carefully so you know how to care for the garment.
Notice if the label says "washable," "machine washable," "dry-clean" or "clean using fur methods only." Some garments, especially those with an authentic fur look may need to be fur cleaned or drycleaned. Also check the label for shrinkage information. Some fake furs may not have been treated for shrinkage between the making of the fabric and the making of the garment. Then, even though the garment may carry a "washable" label, you have some responsibility in how that washing is done. The water should be warm, not hot. Use a mild soap or detergent. The speed of agitation makes a difference too. Rapid action of the water tends to cause clumping and matting of the fur. If your washing machine has a "delicate" fiber, use this setting for a shorter washing cycle too.
Tape drying or laying the garment on a terry towel to dry will also help prevent matting of the "fur." It may look shiny and matted when it dries, but a gentle brushing or combing usually puts it out again.

ANNUAL ALIEN ADDRESS REGISTRATION CAUSES RISE IN NATURALIZATION APPLICATIONS

Arthur A. Poulin, Jr., District Director of the Maine District, United States Immigration and Naturalization Service, stated that the annual alien address report program usually causes a sharp rise in the number of applications for naturalization.

The Immigration and Nationality Act requires all aliens in the United States, with few exceptions, to report their addresses each January. Throughout the United States, almost 20 per cent more applications for naturalization are received during the months of January, February, and March than are received during other months. Mr. Poulin attributes this sudden rise to the Alien Address Report Program.

Aliens not required to make this report are diplomats and those accredited to certain international organizations.

Forms for making the reports will be available to aliens at all Post Offices and Offices of the Immigration and Naturalization Service during the month of January. Mr. Poulin indicated that aliens desiring information concerning Naturalization, or similar matters, may obtain the necessary forms or information at an office of the Immigration and Naturalization Service where personnel trained in these fields are available to answer inquiries.

At this time all aliens in the United States, as well as any prospective employer of an alien who is in the United States, are also placed on notice that the issuance of a Society Security Account Card to an alien is not evidence of legal permission from the Government for the alien to be employed in the United States. As a general rule, only those residents who have been lawfully admitted to the United States for permanent residence (lawfully resident immigrants) may work in the United States. However, certain aliens who have been admitted for a temporary stay in the United States (non-immigrants), but who in unusual situations have received written permission from the Immigration and Naturalization Service, may accept employment in the United States.

Any other alien working in the United States in violation of law is subject to certain penalties established by the Immigration and Nationality Act, including required departure from the United States. Therefore, any alien, employer of aliens, or prospective employer

I.R.S. TAKING LONG HARD LOOK AT VARIETY OF TAXPAYERS

The Internal Revenue Service is taking a long hard look at a great variety of citizens ranging from jobless men to bankers. IRS wants to be sure those taxpayers are complying with their federal income tax requirements.

"We are checking on a number of special taxpayer groups to see if they are correctly withholding taxes, and are declaring their income on their tax returns," said Whitney L. Wheeler, IRS District Director of Maine.

Wheeler explained that the IRS is particularly interested in self-employed taxpayers. He said they are responsible for withholding their own taxes and must pay taxes quarterly by estimating the amount. Roadside vendors, bowling alleys, beauty salons, tire recappers, barbershops and fishermen, are some of the areas under scrutiny.

"Roadside vendors are required to file quarterly estimated tax returns. We will watch their returns closely to see they comply with regulations. We want all taxpayers to be treated equally under the tax laws," said the District Director.

Gentle Or Rough?

Jalilus Caesar outlawed a football-like game his soldiers played because it was too gentle. But just after the turn of the 20th century, Teddy Roosevelt, though a lover of the strenuous life, found college football so rough he threatened to ban it by presidential edict unless it was cleaned up.
